

HOSTED PBX

- **Low upfront cost** for equipment, phones and installation
- **Bundled price** includes everything you need - phone system, long distance, and equipment
- **Advanced features** such as simultaneous ring, auto attendant, hunt groups, and music-on-hold
- **Network-based service** means Hosted PBX can handle calls during power outages
- **Scales** to meet your changing business needs
- **Web interface** enables you to change features at the click of a mouse
- **Personalized training** to ensure you get the most out of your service

PROVIDING A PROFESSIONAL EXPERIENCE WHEN YOUR CUSTOMERS CALL IS CRITICAL - IT CAN BE THE DIFFERENCE BETWEEN WINNING OR LOSING BUSINESS, SO NO MATTER HOW SMALL YOUR BUSINESS, YOU SHOULD HAVE ACCESS TO THE SAME FEATURES AND PROFESSIONAL FUNCTIONALITY OF A BIG COMPANY. WITH HOSTED PBX, RT DELIVERS YOU A BEST-IN-CLASS PHONE SYSTEM WITH ALL THE BELLS AND WHISTLES OF A BIG COMPANY PHONE SYSTEM AT AN INCREDIBLY ATTRACTIVE PRICE.

WHY CHOOSE HOSTED PBX?

Hosted PBX is a cloud-based, Voice over IP phone system that delivers best in class capabilities at a fraction of the cost of a traditional phone system. Everything you need is included - phones, equipment, installation and training. Advanced features and easy administration via a web portal makes Hosted PBX the last phone system you'll ever need to buy.

MOBILITY PACKAGE

RT's mobility package gives customers a great way to integrate their mobile device, tablet, or laptop into their corporate communications landscape.

It includes downloadable clients for:

- Windows based laptops
- Android-based mobile devices and tablets
- iOS (Apple)-based devices and tablets

Each of the clients provides full integration with desk phone functions as well as soft phone functions, enabling the user to send and receive calls from any device (with an active internet connection). It also includes video chat for internal conversations and (soon) voice to text transcriptions for voicemail messages.

HOSTED PBX WEB PORTAL

Hosted PBX allows for a central manager to change settings on phone lines for the entire business and for individual users to have the same easy-to-use control over their own extensions and IP phones. With over 30 years of experience, we at RT pride ourselves on being your hometown voice and data provider. Over the years we have continuously invested in our infrastructure in order to provide our customers with high quality service and cutting edge products.
