4. Local Exchange Service (cont'd)

4.10 Number Reserve Service

(W)

A. Description

Number reserve service is applicable to service during the temporary absence of the principal members of the subscriber's household or business. The temporary absence requirement does not preclude employees or members of the household remaining on the premises, provided that the normal activities of the business or household are suspended.

Number reserve service is granted for not less than one month and not more than nine months within any consecutive twelve month period. Number reserve service may begin or end on any day of the month, provided that sufficient advance notice is given for arrangements to be made.

Complete service will be restored without notice on the last day of the designated number reserve service period, unless the subscriber requests that the Company restore service sooner or extend the number reserve service period (up to the maximum nine month period).

No outward or inward service is provided during the number reserve rate period except the customer may call the Company office and 911 emergency services.

Non-recurring charges for Line Connection will apply to the restoral of service.

Any charges made for additional directory listings or other optional charges will continue at the full rate during the number reserve period.

B. Rates

Number Reserve Service	<u>Monthly</u> 50% of the basic monthly rate (4.9A), the zone charge (4.2.D.4), and EAS charges (4.3.B.2)
